EXECUTIVE SUMMARY

Data Science student with hands-on experience in data analysis, business performance evaluation, and project coordination. Experienced in applying analytical and problem-solving skills through freelance and independent projects, while leading cross-functional teams in event execution. Adaptable, collaborative, and driven to turn data and ideas into practical solutions.

EDUCATION

Open University – Bandung, West Java
Undergraduate Student in Data Science — GPA: 3.04/4.00

- Relevant Coursework: Data Analytics, Statistics, Probability, Programming, Database Systems, Linear Algebra, Regression Analysis, and Research Methods.

2024 – Current

PROJECT EXPERIENCE

Sales Performance Analysis — CPX SPORTWEAR
Data Analyst (Freelance)

February 2026

- Analyzed 6,744 transaction records and 11,307 SKU records covering January 2025 – January 2026 to evaluate sales performance, product trends, and purchasing patterns.
- Cleaned and preprocessed transaction data for daily, monthly, product, and category-level analysis.
- Identified key sales patterns, including Friday and Saturday as peak purchasing periods and accessories as the primary driver of sales volume.
- Translated analytical findings into recommendations for campaign timing, inventory planning, and promotional strategies.

Google Ads Campaign Performance Analysis
Independent Project

August 2025

- Analyzed Google Ads campaign data across CTR, conversion rate, ROI, and funnel stages to evaluate campaign effectiveness.
- Evaluated 11.8M impressions, 361.2K clicks, 52K leads, and 16.9K conversions to identify key conversion bottlenecks.
- Identified the Impression-to-Click stage as the main weakness, while lead-to-conversion performance remained relatively strong.
- Analyzed performance by device and individual ads, identifying mobile as the strongest device and top-performing ads by ROI to inform targeting, creative, and budget allocation strategies.

ORGANIZATIONAL EXPERIENCE AND OTHERS

Creative Night — Kampung Inggris
Event Division Leader

August 2026

- Led the event division by structuring the team, delegating responsibilities, and coordinating event preparation and execution.
- Developed the event concept and rundown while coordinating with cross-functional teams.
- Made real-time decisions and adjustments to ensure smooth event execution and alignment with the overall event objectives.
- Supported team members in completing tasks, strengthened team collaboration and bonding, and ensured responsibilities were clearly understood and completed on time.

Logistics Team Member

May 2026

- Coordinated the procurement of event supplies and equipment based on requirements from other divisions.
- Supported cross-functional teams in fulfilling operational needs and meeting event preparation deadlines.
- Assisted with on-site logistical needs to ensure smooth event execution.

ACHIEVEMENTS

- The Most Active Student — Kampung Inggris Bandung, Mar–Apr 2026
- Best Participant, Intensive Public Speaking Course — Semut Consultant & Kampung Tangguh Nusantara

- IELTS Band 7 (Simulation) — Kampung Inggris

CERTIFICATIONS

- Data Science Fundamentals with Python & SQL — DQLab, 2024
- Data Visualization with Python — DQLab, 2024
- Speaking Intensive 3 — B1, Grade: Very Good — Kampung Inggris

SKILLS

TECHNICAL SKILLS

Python, SQL, Data Analysis, Statistical Analysis, Business KPI Analysis, Microsoft Excel, Database Management, Data Visualization, Data Interpretation, Research & Analysis

CORE SKILLS
